

DAYMAP PARENT PORTAL

Parent Portal is live and can be accessed at the bottom of the Balaklava High School home page. From there you can access valuable information such as student timetables, lessons, assessments, results and also all assigned homework. Students can now utilise Daymap as their 'electronic diary'. With all homework located now on Daymap and accessible through the Portal, Homegroup teachers will be sending all written parent communications via the Portal and to check that you have received homework for your child. You can also send messages directly to Teachers via the Parent Portal. New users will have login information emailed to them when following the link below and existing users can reset their password by contacting the school. You will require your email address and the 6-digit student ID to login. Please ensure that your contact details are up to date for Parent Portal to work. The Daymap App (Android and iPhone) is also available to access.
